

# Surrey Cricket Championship

## Creation of 39 Divisions

The Surrey Cricket Championship (SCC) was formed in 2025. It was formed following the merging of three established leagues in Surrey:

1. The Surrey Championship – 243 sides at end 2024 season
2. The Surrey County League – 76 sides at end 2024 season
3. The Surrey Cricket League – 33 sides at end 2024 season

The new SCC started with the above 352 sides. There were then applications from 33 new sides to join the SCC making a total of 385 sides, whilst 2 sides withdrew.

This resulted in the SCC starting as a total of 383 sides from 129 clubs.

The process for creating the draft divisions for the new SCC started by mapping sides from the three merging leagues into their respective Levels following the agreed and widely distributed structure produced in March 2024 and presented to all clubs at the various consultation meetings. This structure was developed further and finally issued as **Structure 1G** which has been available for all to view on the Surrey Cricket Foundation web site for over 6 months.

The 33 new sides were then added to this list populating a number of the 'Other' gaps deliberately left in Structure 1G for this purpose. These placings were done by viewing the past performances of the various sides and slotting them into the structure at what was considered the most appropriate Level. We recognise these are informed choices and some teams may find the division easier or harder than anticipated, but we must start somewhere.

The end result was the following structure:

SCC Premier	10	SCC Level 7	30
SCC Level 1	10	SCC Level 8	40
SCC Level 2	10	SCC Level 9	40
SCC Level 3	20	SCC Level 10	50
SCC Level 4	20	SCC Level 11	48
SCC Level 5	30	SCC Level 12	45
SCC Level 6	30	<b>Total</b>	<b>383</b>

This follows Structure 1G exactly as published, except that in Levels 10, 11 and 12 there will only be five regions rather than the published six regions.

As a result:

1. Level 10 will be five divisions of 10 sides
2. Level 11 will be three divisions of 10 sides plus two divisions of 9 sides
3. Level 12 will be five divisions of 9 sides

The next step in the process was the regionalisation.

For this process all sides in the old Surrey Championship and the Surrey County League were located on a map of the County according to the home ground of their club's 1<sup>st</sup> XI. Sides in the old Surrey Cricket League were allocated grounds by the Surrey Cricket Foundation and, due to the fact that in some cases 1<sup>st</sup> XIs are playing remotely to 2<sup>nd</sup> XIs from the same club, all such sides were located individually on the map. New sides to the SCC were similarly located on a map of the County.

In all Levels where regionalisation was necessary, this process started from the Western extremity and the Eastern extremity and worked inwards towards the centre. In most cases the regionalisation was fairly straightforward but in some cases on the boundary between two regions, things are a little subjective.

In the case where a Club has two sides playing at the same Level, we have taken the decision to place the higher side in the correct region and place the lower side in the next nearest region. In some cases, this will mean a bit more travel for such sides and for the other nine sides in the division when visiting this club.

The resulting draft Divisions for the Surrey Cricket Championship for the 2025 season are:
